

My Chiropractic Success Story...

Symptoms Before Treatment:

Medications I was on:

- Severe pain when eating– on the right side of my face
- Low back pain
- Tight neck muscles

- I'm on the same meds plus vitamins from here

Improvements in My Life:

Why I would recommend Select-Care Chiropractic, P.C.:

- Can eat with much less pain now
- Back pain much less
- Range of motion of head better

- Reduced much of my pain

I give Select-Care Chiropractic, P.C. rights to share my Chiropractic Success Story with others.
Only first names will be used.
